

USAutomatic's Ranger 500 Actuator

Time Tested and Time Proven

First Introduced December 2024

Our Ranger 500 actuator has been upgraded with the following features:

**Stainless Steel Clevis
Rear Mount**

- Stronger mount like our
larger models

**Anodized Aluminum Housing
and Cover Tube**

- Superior finish and
corrosion protection

Stainless Steel Eyebolt

- Stronger and superior
corrosion protection

**Heavy Duty Motor
and Drive Bearings**

- Stronger thrust
force for higher
wind loads and
smooth operating
on larger gates

End of Travel Kill Switches

- Prevents actuator jamming in
either direction

Plug & Play Quick Connect Harness

- Easy to replace on the job site

* Transmitters and Photo Eyes
included in every kit.
