**Location:** 10/4/2021-S. CHAPTERED

**Summary:** Current law authorizes a specified health care provider who diagnoses an STD, as specified, to prescribe, dispense, furnish, or otherwise provide prescription antibiotic drugs to that patient's sexual partner or partners without examination of that patient's partner or partners. The Pharmacy Law provides for the licensure and regulation of pharmacists by the California State Board of Pharmacy. The Pharmacy Law requires a pharmacist to dispense a prescription in a container that, among other things, is correctly labeled with the name of the patient or patients. Current regulation requires a pharmacist to ensure that a patient receives written notice of their right to consult with a pharmacist, when the patient or the patient's agent is not present. This bill would name the above practice "expedited partner therapy." The bill would require a health care provider to include "expedited partner therapy" or "EPT" on a prescription if the practitioner does not have the name of a patient's sexual partner, and would authorize a pharmacist to dispense an expedited partner therapy prescription and label the drug without an individual's name if the prescription includes "expedited partner therapy" or "EPT."

Current law provides for the regulation of health insurers by the Department of Insurance. Current law requires the above-described federal health care coverage market reforms to apply to a health care service plan or health insurer, but conditions the operation of certain of these market reforms on the continued operation of PPACA or certain of its requirements.
