## **FMIT Turnkey Recovery: Are You Ready for Hurricane Season?**

Successful response and recovery is a process planned for in advance. On May 2, the City of Sanibel took a progressive step with its management team and Florida League of Cities/Synergy team to be assured that city leaders are prepared for the next hurricane.

As June 1 marks the beginning of hurricane season, all members of the Florida Municipal Insurance Trust are encouraged to implement the same type of organizational staff meetings. Here are some steps to follow:

- Discuss what you learned from Hurricane Irma.
- Consider the worst-case property scenario that could take place.
- Discuss your expectations and the expectations of the FLC/Synergy in terms of the following:
  - Communication
  - Planning
  - Response
  - Recovery
- Understand the key policy revisions from the FLC.
  - Deductibles
  - Limits
  - Excess Flood coverage
  - Wind-Driven Rain coverage
  - Property in the Open coverage

Don't wait until after the catastrophic event takes place to get organized. Take action now!
