Praise for our fellowship

"There is a growing need for Geriatricians, and I knew I wanted to train at the best program possible. From managing multiple chronic conditions to goals of care discussions, to deprescribing are just some of the skills I was able to develop during my fellowship year. The Geriatric Medicine Program at Cleveland Clinic Florida is a well-established program with all the tools and opportunities needed to make me well rounded clinician. From diversity of clinical opportunities to 1:1 mentoring from faculty members broadened my knowledge, such that skills I felt weak in at first, became second nature by the end of fellowship. The autonomy entrusted to me allowed me to have complete involvement in the care of my patients, which is not something you will find everywhere." – Jonathan Paul, MD (graduated 2022)

Cleveland Clinic Geriatric Medicine Fellowship

The Cleveland Clinic Geriatric Medicine Fellowship Program seeks to train medical professionals to deliver high quality care to all older persons by enhancing their medical knowledge, developing skills as educators, and fostering inquisitive thought through participation in research and quality improvement. The one-year clinical Fellowship in Geriatric Medicine offered by the Cleveland Clinic is designed to train physicians to assume positions of leadership in the field of Geriatric Medicine. Experiences in outpatient consultative geriatric evaluation and management (GEM), inpatient geriatric consultation services, long-term and post-acute care, geropsychiatry, neurology, hospice/ palliative care/ home care, and elective services. Aside from clinical experiences, the fellows are immersed in teaching responsibilities for residents, medical students, and ultimately required to present at the department of general internal medicine grand rounds – these experiences increase the skill and confidence in the trainees to take on teaching responsibilities often associated with a position in geriatric medicine and prepare them to assume a role as a clinician educator. The fellowship program takes advantage of educational programs available at the Cleveland Clinic to further enhance the fellows' teaching skills. Participation in community activities (health care screenings, health talks), quality improvement projects, scholarly activities (abstract generation, poster presentations at local/regional/national conferences), and opportunities to for scholarly writing (review articles, etc.) are present throughout the year and further enhance the fellow's education.

The fellows are provided opportunities to attend national geriatric medicine meetings (including the American Geriatrics Society and the Society for Post-Acute and Long-Term Care) to acquire knowledge of opportunities for career development and network with colleagues in this field to foster collaboration, career growth, and mentorship to help guide their development during and after fellowship.

The 12-month fellowship in Geriatric Medicine is offered by Cleveland Clinic Health System. At the completion of the fellowship, the fellow is eligible to sit for the Certificate of Added Qualification exam. The ultimate aims that the program has for the fellows include instilling within them the skills necessary to provide high quality care for complex older persons in any venue, teach learners of various backgrounds the principles of care for older persons, develop a mindset to integrate new technologies and knowledge into processes of care and education, and prepare them for leadership roles guiding care teams and fostering quality improvement and research initiatives that enhances patient care.

Geriatric Medicine Fellowship Program Director in Florida

Cleveland Clinic Florida – Weston, FL

Cleveland Clinic Florida's Primary Care Institute is seeking an exceptional physician leader to serve as **Program Director for the Geriatric Medicine Fellowship Program** at our Weston, Florida location. This ACGME-accredited, one-year fellowship has been training future leaders in Geriatric Medicine since 2004 and is nationally recognized for its comprehensive, patient-centered approach to care.

Program Overview

The Cleveland Clinic Florida Geriatric Medicine Fellowship provides world-class training rooted in the 5Ms of Geriatrics — Mind, Mobility, Multicomplexity, Medications, and What Matters Most. Fellows benefit from a multidisciplinary, interprofessional environment and learn from experienced Geriatricians committed to delivering evidence-based, compassionate care to older adults. With a strong track record of producing graduates who become leaders in clinical care, research, academics, and administration, the program emphasizes both clinical excellence and leadership development.

Located in South Florida, a region with rich cultural diversity and a rapidly growing aging population, Cleveland Clinic Florida offers fellows a broad and meaningful clinical experience.

Role & Responsibilities

The Program Director will have full responsibility, authority, and accountability for the operation of the fellowship program. Key responsibilities include:

- Leading curriculum development and implementation
- Ensuring ongoing compliance with ACGME accreditation standards
- Mentoring fellows in clinical practice, research, and professional development
- Collaborating with faculty and institutional leadership across departments and specialties
- Maintaining a meaningful clinical practice in Geriatrics to ensure educational relevance and high-quality patient care

The Program Director will dedicate a minimum of 25% of their professional effort to administrative and educational responsibilities, with institutional support for this time.

Qualifications

- MD or DO with board certification in Geriatric Medicine
- Demonstrated experience in graduate medical education leadership
- Strong commitment to clinical care, medical education, and scholarship
- Excellent leadership, communication, and collaboration skills

Why Choose Cleveland Clinic Florida

Cleveland Clinic is consistently ranked among the top hospitals in the nation and is a global leader in patient care, medical education, and research. The Geriatric Medicine Fellowship is supported by a highly experienced faculty

and provides access to world-class resources across the Cleveland Clinic enterprise. Fellows train in a collaborative environment that values innovation, academic rigor, and respect for older adults.

About Weston, Florida

Weston is a master-planned, family-friendly community located 20 minutes west of Fort Lauderdale and 45 minutes from Miami. Known for its top-rated public schools, lush green spaces, and exceptional safety, Weston offers an outstanding quality of life. With a vibrant mix of cultures, abundant recreational amenities, and proximity to both beaches and the Everglades, Weston is an ideal place to live and work.

Greater Lawrence Family Health Center is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, or protected Veteran status.

Assistant Provost for Health and Wellness - Faculty Physician

Thomas Jefferson University

The Assistant Provost for Health and Wellness is responsible for the overall direction, leadership and administration of learner wellness. This includes providing high quality physical and mental health care, and health promotion services to students. The Assistant Provost will oversee educational outreach and all health promotion programs and services. Additionally, the Assistant Provost will provide direct primary care for eligible patients, spending 50% of their time providing direct patient care and 50% of their time administratively.

Responsibilities:

- Develop and execute a plan to provide primary medical care to students and assure adequate, safe, and timely services.
- Responsible for the administration, planning, implementation and evaluation of counseling and student health services.
- Create and implement an enterprise-wide program for student health promotion and wellbeing, empowering our students to make decisions contributing to positive health behaviors.
- Participate in policy making to promote overall student health and illness prevention initiatives throughout the University.
- Provide direct patient care.
- Collaborate with Graduate Medical Education (GME) counseling and programming.
- Serve as the liaison to Jefferson Occupational Health Network for student health in Center City.
- Interacts with co-workers, visitors and other staff consistent with the values of Jefferson.

Candidate Qualifications:

- MD, DO or foreign equivalent.
- Physician candidates must be board certified or board eligible in family medicine. If board-eligible the selected candidate must pass the boards within two years of hire.
- Experience in student health and/or adolescent/young adult care required.
- Candidates with leadership experience is preferred.

WE IMPROVE LIVES

Founded in 1824, **Sidney Kimmel Medical College at Thomas Jefferson University**, located in Philadelphia Pennsylvania, has awarded more than 31,000 medical degrees and has more living graduates than any other private medical school in the nation. The **Department of Family and Community Medicine** has graduated 372 family physicians since 1974. Many leaders in family medicine across the nation have roots in our department.

Interested candidates may submit CV to Chandler.Clemens@jefferson.edu. For additional information on Jefferson, visit www.jefferson.edu.

Nationally ranked, Jefferson, which is principally located in the greater Philadelphia region, Lehigh Valley and Northeastern Pennsylvania and southern New Jersey, is reimagining health care and higher education to create unparalleled value. Jefferson is more than 65,000 people strong, dedicated to providing the highest-quality, compassionate clinical care for patients; making our communities healthier and stronger; preparing tomorrow's professional leaders for 21st-century careers; and creating new knowledge through basic/programmatic, clinical and applied research.

[Thomas Jefferson University](#), home of Sidney Kimmel Medical College, Jefferson College of Nursing, and the Kanbar College of Design, Engineering and Commerce, dates back to 1824 and today comprises 10 colleges and three schools offering 200+ undergraduate and graduate programs to more than 8,300 students. [Jefferson Health](#), nationally ranked as one of the top 15 not-for-profit health care systems in the country and the largest provider in the Philadelphia and Lehigh Valley areas, serves patients through millions of encounters each year at 32 hospitals campuses and more than 700 outpatient and urgent care locations throughout the region. [Jefferson Health Plans](#) is a not-for-profit managed health care organization providing a broad range of health coverage options in Pennsylvania and New Jersey for more than 35 years.

Jefferson is committed to providing equal educational and employment opportunities for all persons without regard to age, race, color, religion, creed, sexual orientation, gender, gender identity, marital status, pregnancy, national origin, ancestry, citizenship, military status, veteran status, handicap or disability or any other protected group or status.

Primary Care Physician - Family Medicine - South Philadelphia, Jefferson Health

The Department of Family & Community Medicine of the Sidney Kimmel Medical College at Thomas Jefferson University is currently accepting candidates for the position of **outpatient Primary Care Physician** at the **Jefferson Health East Passyunk Family Medicine practice**. The practice is located in South Philadelphia near Methodist Hospital, just minutes from Center City Philadelphia and in the heart of the exciting East Passyunk business and residential district. This is a unique opportunity to join a supportive work environment serving a diverse, close-knit community in South Philadelphia.

Responsibilities will include:

- Outpatient family medicine (currently limited to ages 12+)
- Treating 2-3 patients per hour with protected time for clinical administration (32 hours patient-facing care, 8 hours administrative time).
- Establishing and maintaining a panel of patients, managing chronic health conditions, acute conditions, and preventive care.
- Women's health visits, routine GYN exams, and LARCs if desired / credentialed.
- At-home telephone call 5-9PM once monthly in a large DFCM pool of call participants.
- Work as part of interprofessional team (including MA, behavioral health, social workers, population health specialists) that provides patient-centered care.

Requirements:

Qualified applicants will hold a MD or DO degree and be board certified, or eligible, in Family Medicine. Must have or obtain a PA medical license. Academic appointment and salary will be commensurate with experience. Jefferson offers competitive salaries and comprehensive benefit package. Demonstrated commitment to health equity and commitment to implementing and supporting anti-racist practices. Candidates from backgrounds under-represented in medicine strongly encouraged.

Jefferson includes Thomas Jefferson University and Jefferson Health, a dynamic university and health system with broad reach across the Delaware Valley. Jefferson is the second largest employer in Philadelphia and the largest health system in Philadelphia based on total licensed beds.

Through the merger of Thomas Jefferson University and Philadelphia University in 2017, our University includes ten colleges and four schools. We are an NCAA Division II university and an R2 national doctoral university offering undergraduate and graduate-level programs that provide students with a forward-thinking education in architecture, business, design, engineering, fashion and textiles, health, medicine and social science.

Jefferson Health, the clinical arm of Thomas Jefferson University, has grown from a three-hospital academic health center in 2015, to a 17-hospital health system through mergers and combinations that include hospitals at Abington Health, Aria Health, Kennedy Health, Magee Rehabilitation and Einstein Healthcare Network. We have over 50 outpatient and urgent care centers; ten Magnet®-designated hospitals (recognized by the ANCC for nursing excellence); the NCI-designated Sidney Kimmel Cancer Center (one of only 70 in the country and one of only two in the region); and one of the largest faculty-based telehealth networks in the country. Jefferson Primary Care, which includes JFMA, is a 98-site primary care system that together cares for 560,000 people across our region. In 2021, Jefferson Health became the sole owner of HealthPartners Plan (now Jefferson Health Plan) a not-for-profit health maintenance organization in Southeastern Pennsylvania, and became the first health system in the region with an aligned payer-provider partnership.

Jefferson's mission, vision and values create an organization that attracts the best and the brightest students, faculty, staff, and healthcare professionals, as well as the most visionary leaders to drive exceptional results.

- **OUR MISSION:** We improve lives.
- **OUR VISION:** Reimagining health, education and discovery to create unparalleled value
- **OUR VALUES:** Put People First, Be Bold & Think Differently and Do the Right Thing

As an employer, Jefferson maintains a commitment to provide equal access to employment. Jefferson values diversity and encourages applications from women, members of minority groups, LGBTQ individuals, disabled individuals, and veterans.

Einstein Montgomery Family Medicine Residency Program is seeking **Core Faculty members** for a community-based 6-6-6 Family Medicine residency in Norristown, PA located in Montgomery County right outside of Philadelphia. Candidates must be passionate and enthusiastic for practicing in an underserved area and teaching family medicine while being advisors and mentors to residents and medical students. The successful candidate will support the program leadership in developing, implementing, and assessing curricula and taking an active role in building the residency practice.

The Core Faculty member will have a significant role in the education and supervision of the residents, including teaching, evaluating, and providing formative feedback. In addition, the Core Faculty member will develop and care for a patient panel within the residency practice. Faculty are eligible for academic appointment at Thomas Jefferson University's School of Medicine.

Responsibilities:

- Initial 0.7 FTE clinical, 0.3 education
- Deliver high-quality care to the patients of our Ambulatory training site.
- Provide clinical supervision and mentoring of residents and medical students in the outpatient setting with outpatient call coverage responsibilities
- Teach didactics, contribute to curriculum development, simulation training, practice management and other innovative topics in Family Medicine education
- Provide regular resident and student evaluation/feedback
- Regularly participate in organized clinical discussions, rounds, journal clubs, conferences, and residency committees
- Pursue faculty development designated to enhance skills
- Serve as an advisor and role model of professionalism, fostering one's own and resident/student well-being, educational goal setting, career planning, scholarship, and safe, high-quality patient care based on practice-based learning and improvement efforts
- Pursue scholarly activities including presenting at scientific society meetings, participation in national committees and/or educational organizations, quality initiatives, publications, grants, etc.
- Incorporate a complementary culture of learning into the current patient- and community-centered health culture, including principles of quality and equity, humanism, research, and population health

Qualifications:

- Previous teaching experience in an ACGME-accredited program preferred
- Clinically active in Family Medicine
- OB/Inpatient Medicine teaching experience welcome
- American Board Certified/Board Eligible in Family Medicine from ABFM or AOBFM
- Currently hold or possess the ability to obtain medical licensure to practice medicine in Pennsylvania
- Currently hold or possess ability to obtain a DEA with full prescriptive authority
- Commitment to providing team-based, high-quality, evidence-based patient care
- Commitment to training the physicians of tomorrow, with interest in curriculum development and medical pedagogy
- Demonstrated administrative, scholarly and research activity

Division Director and Enterprise Clinical Leader, Palliative Care

Jefferson Health and Thomas Jefferson University seek an experienced academic palliative care leader to lead an academic Palliative Care division, and to create and execute a visionary strategy for palliative care across Jefferson Health.

Responsibilities

The successful candidate will lead the Division of Palliative Care within the Department of Family and Community Medicine at Sidney Kimmel Medical College of Thomas Jefferson University; and will coordinate across Jefferson Health's regions to support and promote high-value palliative care services including hospital consultation; skilled nursing facility consultations; and non-oncologic ambulatory, telehealth, home-based, and value-based palliative care. The candidate will report to the Chair of Family and Community Medicine and Enterprise Chief of Primary Care for both academic and health system roles. The candidate will be appointed as a faculty member of the Sidney Kimmel Medical College at the appropriate rank.

As Division Director, the candidate will have direct accountability for clinical palliative care services at Thomas Jefferson University Hospital and Methodist Hospital, including inpatient consultation, and growth of services for ambulatory, telehealth, and community-based non-oncologic palliative care services. The candidate will oversee the palliative care fellowship program through supervision of a designated fellowship program director; and oversee educational programs for medical students, residents, and other learners. The successful candidate will be responsible for furthering an extramural funding program including research, programmatic grants, and philanthropy. The Division Director will collaborate with colleagues in the department, medical school, health system, health plan, and university to promote research, education and practice of high quality palliative care.

Qualifications

- MD/DO
- Board Certified in Palliative Care. While the Division is housed in the Department of Family and Community Medicine, palliative care physicians from any primary board certification are encouraged to apply.
- At least 5 years' and preferably 10 years' experience in leadership of clinical, educational, and/or research programs
- Demonstrated strong management and mentorship skills, including building and leading interprofessional teams
- Demonstrated ability to work effectively in a matrixed environment

WE IMPROVE LIVES

- Strong understanding of palliative care clinical models including considerations of design, business modeling, productivity, quality, experience, and equity; experience with new program development or expansion preferred
- Commitment to interprofessional team structures
- Demonstrated commitment to health equity

Residency Faculty Hospitalist New Opportunity in Baltimore!

The Department of Family Medicine at MedStar Franklin Square Medical Center in Baltimore, Maryland, seeks a MD/DO faculty member for a primarily hospitalist/inpatient role for our 26-resident community-based residency program with 18 faculty. The faculty member would lead and supervise the resident inpatient service. This position could include a limited amount of outpatient faculty clinical and precepting activity along with scholarly and academic work.

Our inpatient service prioritizes holistic and comprehensive care for our established adult Family Health Center patients. Our Family Health Center provides over 35,000 visits per year with excellent pediatrics and chronic disease programs, and NCQA Level III PCMH designation since 2011. Our four-year combined Family Medicine/Preventive Medicine program with the Johns Hopkins Bloomberg School of Public Health and other active collaborations bring a community and population health focus to our program. Our academic appointments are with Georgetown University.

As a MedStar Health physician, you can expect:

- A very competitive salary with incentive compensation and generous signing bonus
- Medical, dental and vision insurance
- Generous paid time off with additional CME leave and annual allowance
- Retirement plan options with employer matching
- Access to UpToDate Anywhere
- Ambient Note Dictation

URM candidates are strongly encouraged to apply. Qualified applicants should reply with curriculum vitae and letter of interest to Melly Goodell, MD, Chair, Department of Family Medicine, MedStar Franklin Square Medical Center, at melly.goodell@medstar.net

This position has a base salary hiring range of \$180,000 - \$220,000. In addition to the base salary, you are eligible for the signing bonus and incentive compensation.

It's how we treat people.

MedStar Health

FAMILY MEDICINE RESIDENCY FACULTY PHYSICIAN

MEDSTAR FRANKLIN SQUARE MEDICAL CENTER

The Department of Family Medicine at MedStar Franklin Square Medical Center in Baltimore, Maryland, seeks a MD/DO faculty member with or without obstetrics for our 26-resident community-based residency program with 18 faculty. This position includes direct patient care, resident and medical student teaching, and administrative and scholarly activity. Applicants with an interest in continuing inpatient care are encouraged.

Our Family Health Center has over 34,000 visits per year with excellent pediatrics and chronic disease programs, and NCQA Level III PCMH designation since 2011. Our four-year combined Family Medicine/Preventive Medicine program with the Johns Hopkins Bloomberg School of Public Health and other active collaborations bring a community and population health focus to our program. Our primary academic affiliation is with Georgetown University and our department hosts GUSOM students completing a 6 month longitudinal integrated curriculum.

MedStar Franklin Square is a member of the 10-hospital, not-for-profit MedStar Health, an academic health system with over 1,000 residents and fellows and the largest healthcare provider in Maryland and the Washington, D.C. region.

Qualified applicants should reply with curriculum vitae and letter of interest to Melly Goodell, MD, Chair, Department of Family Medicine, MedStar Franklin Square Medical Center, at melly.goodell@medstar.net or mail to 9101 Franklin Square Dr., Suite 300, Baltimore, MD 21237

BRAND

The NYC Homeless Healthcare Fellowship in Partnership with Montefiore-Einstein

The Department of Family & Social Medicine
Post-Graduate Curriculum in Homeless Healthcare

The NYC Homeless Healthcare Fellowship
is accepting applications for
July 2025 - June 2026!

Approximately 130,000 individuals are staying in NYC shelters and thousands more are on the street or other spaces not meant for sleeping. Any period of homelessness is destabilizing for the individual and the family and has far-reaching impacts, including on health. It is harder to control chronic conditions and it is easier for people experiencing homelessness to develop new medical conditions. **Our fellowship program aims to reduce as many barriers to care as possible by simultaneously bringing healthcare to the patients and preparing physicians with a strong set of skills to meet specific healthcare needs that are more common among patients served in shelters, in mobile-units, and by street medicine teams.** Launched in 2020, Montefiore's NYC Homeless Healthcare Fellowship trains physicians to work with community-based health care and social service organizations to support and empower patients experiencing homelessness to meet their goals related to addiction and drug-user health, virology, sexual & gender-affirming health, mental health, trauma, and chronic disease management.

Fellowship training includes the following components:

- ◆ **Direct-Patient Care** at a partnering NYC-based host homeless healthcare organization,
- ◆ **On-Going Training** through lectures, workshops, case conferences, online modules, and attendance at national meetings focused on homeless healthcare, and
- ◆ **Mentored Scholarly Work** in an area of the fellows' interests, which will result in a final presentation as well as a final product, such as a white paper, original article, provider toolkit, and/or abstract for submission to a professional meeting.

Want to learn more? Email HomelessHealthDFSM@montefiore.org for more information or contact Dr. Sandhya Kumar at sakumar@montefiore.org to set up an information session.

The NYC Homeless Healthcare Fellowship in Partnership with Montefiore-Einstein

The Department of Family & Social Medicine
Post-Graduate Curriculum in Homeless Healthcare

Fellowship Application

Fellowship positions are open to family medicine, internal medicine, and emergency medicine physicians. Physicians must be licensed and board-eligible or board-certified at time of starting fellowship. **Applications are reviewed on a rolling basis until the positions are filled.**

Please submit the following to apply for this position:

- ◆ Curriculum vitae (CV)
- ◆ One-page detailed statement of interest in the fellowship - Please include any relevant experience, how this position will prepare you for a future career in homeless healthcare, and what you hope to gain from the fellowship..
- ◆ Three letters of reference, including one from the director of your most recent training program or recent employer (such as residency program director)
- ◆ (Optional) Any materials illustrating your interest in homeless healthcare (e.g., white papers, research reports, policy briefs, presentations, abstracts)

Compensation and Benefits:

- ◆ Each fellow will earn an annual salary negotiated with the host homeless healthcare organization (range \$120K—\$140K) and receive an additional \$20,000 fellowship stipend.
- ◆ Each fellow is eligible for all full-time benefits, including health insurance, disability insurance, and annual & sick leave.
- ◆ Additional benefit includes funding for wound care training and approved conferences.

Inquiries and applications may be emailed to
sakumar@montefiore.org.

Join our Family Medicine Team and Unleash your Potential with a Rewarding Career

Penn State Health is a multi-hospital health system serving patients and communities across central Pennsylvania. We are seeking BC/BE Family Medicine or Internal Medicine physicians to join our growing Penn State Health family in various settings within our health system. University of Rochester Medical Center

University of Rochester Department of Family Medicine
Seeking Physician to join our Family Medicine Faculty Group

Faculty Appointment/Competitive Salary/ Generous UR Benefits

Highland Hospital/University of Rochester Department of Family Medicine

Medical Director, Highland Family Medicine

The University of Rochester Department of Family Medicine (DFM) is seeking an academic Family Physician to join our faculty and serve as Medical Director of the Highland Family Medicine (HFM) practice, a vibrant, full spectrum Family Medicine training practice serving over 25,000 patients and families from diverse backgrounds in Rochester, NY/Monroe County. The Medical Director provides direction and oversight of all the clinical activities of HFM, a level 3 NCQA certified Patient Centered Medical Home, which is the main training site for both the HH/URMC Family Medicine Residency as well as the Highland Family Medicine Nurse Practitioner Residency.

The Medical Director serves on the DFM Executive Committee and provides leadership regarding the clinical practice of the department. This includes responsibility for the clinical care delivered by an inter-professional team of physicians, nurse practitioners, pharmacists and trainees in each of these disciplines, as well as collaborating with the Clinical Director of the embedded Behavioral Health practice on site. The ideal candidate will be an ABFM board certified Family Physician with prior academic experience. We are seeking a candidate with creativity and vision to advance the mission of the DFM, “to improve the health of our communities and reduce healthcare disparities through leadership and excellence in family medicine education, clinical practice, research, and community service.”

Candidate must have an MD or equivalent degree with board certification or eligibility in Family Medicine and eligibility for a NY state license. A post-offer health assessment and drug testing is required to be performed on-site.

The Department of Family Medicine (DFM) is committed to becoming an Anti-Racist department, consistent with the guidelines of the URMC Equity and Anti-Racism Action plan. The vision of the DFM is for all persons, (patients, staff, family members, visitors) who interact with the Department of Family Medicine through clinical care, education, research and scholarship to be treated with dignity and respect.

The University of Rochester Department of Family Medicine (URMC) is a private, coeducational, nonsectarian, and nonprofit university. It forms the centerpiece of the University of Rochester's health research, teaching and patient care missions. We have a diverse population of students, faculty, and staff, all committed to the University's motto of "Meliora" – Ever Better.

Interested individuals should apply on-line to Job posting 126217 at apply.interfolio.com/134432

Interested candidates should submit a cover letter and curriculum vitae to
Colleen T. Fogarty, MD, MSc, FAAFP, William Rocktaschel Professor and Chair of Family Medicine.

Associate Program Director for Rural Track Program

The University of Rochester Family Medicine Residency Program is seeking candidates for an Associate Program Director for our new Rural Track Program.

Our 13-13-13 residency program based in Rochester, NY is expanding to take 2 additional residents per year who will train in a rural setting in a 1+2 model. This new track expands on our program's 50+ year history of training family physicians to practice full-spectrum family medicine with a specific emphasis on caring for underserved communities. After completing their first year of training in the Rochester area, residents will relocate to our rural site 50 minutes south of Rochester for their final 2 years of training. Hospital and outpatient specialty experiences will occur at two rural community hospitals that are part of the University of Rochester Medical Center system. The residency practice will be based within Tri-County Family Medicine, an FQHC-lookalike organization with 6 health centers throughout the rural counties south of Rochester. Tri-County Family Medicine has provided comprehensive care for these communities for over 50 years. Construction of a brand-new residency clinic site is planned.

The Associate Program Director will assist the Residency Program Director in running and administering the program. They will function as the acting program director in the event of the Program Director's absence. They will assist with administrative functions; plan, implement and assist with major educational projects; and assist in recruitment of residents. The Associate Program Directors hold integral positions on the Residency Administration team.

Clinically, this faculty member will maintain an outpatient family medicine practice at Tri-County Family Medicine. Inpatient maternity care with surgical OB training is strongly desired as this program will play a crucial role in providing maternity care to the rural population. Inpatient hospital medicine privileges may also be available to interested candidates.

The Department of Family Medicine (DFM) is committed to becoming an Anti-Racist department, consistent with the guidelines of the URMC Equity and Anti-Racism Action plan. The vision of the DFM is for all persons, (patients, staff, family members, visitors) who interact with the Department of Family Medicine through clinical care, education, research and scholarship to be treated with dignity and respect.

Candidates must possess an MD/DO degree, or equivalent, and have at least 3 years of family medicine practice experience, preferably in a rural and/or an academic setting. Prior residency administrative or teaching experience is also highly desired, but administrative and leadership development will be provided for this role. Candidates must be board-certified in family medicine and eligible for licensure in New York state.

Interested individuals should apply on-line to Job posting 153397 at <http://apply.interfolio.com/159495>

Faculty Development Fellow

The University of Rochester Department of Family Medicine is now accepting applications for its two-year Instructor position in the Faculty Development Fellowship Track. We have over 20 years of experience in successfully training family medicine fellows for academic careers. Many of our fellowship graduates have become leaders in family systems teaching and academic family medicine.

Within this two-year faculty appointment in the fellowship, fellows may design special study and research tracks in health services research, medical education, or marriage and family therapy. The fellowship is built on a planned curriculum of educational and evaluation activities in the domains of research, education, and leadership/career development. We also provide rich experiences in career planning and management, leadership, teaching and curriculum development -- skills essential for academic success.

Curriculum Highlights

Our fellowship includes training in the key domains of research, population health, and leadership/career development, with a focus on health equity. Many fellows pursue advanced degrees, including a Master of Public Health, Master of Science in Clinical Investigation, or a Master of Science in Health Professionals Education.

A weekly seminar series offered in partnership with the Pediatrics Department provides instruction on research, health disparities, leadership, education, career development and scientific writing, and gives fellows opportunities to present their developing ideas and project results.

Clinical Experiences

Fellows function as primary attending physicians for their outpatient panel. Fellows may opt to continue inpatient care as the teaching attending on the Family Medicine inpatient team, with mentoring from a more senior faculty member. Qualified fellows may include full-spectrum maternity care in their training. The total amount of clinical time for fellows averages 40%.

Training Environment

The Department of Family Medicine and the URMC are ideally suited to provide a home for this fellowship program. Our long history of general and primary care training, our extensive local and national expertise, and the breadth of our faculty ensure that each fellow will receive rigorous training. Our fellowship is supported by a training grant jointly with general pediatrics and family medicine, as well as clinical revenues from the Department of Family Medicine.

The Department of Family Medicine (DFM) is committed to becoming an Anti-Racist department, consistent with the guidelines of the URMC Equity and Anti-Racism Action plan. The vision of the DFM is for all persons, (patients, staff, family members, visitors) who interact with the Department of Family Medicine through clinical care, education, research and scholarship to be treated with dignity and respect.

Family Physician Faculty with Maternity Care

The University of Rochester Department of Family Medicine is recruiting for a full-time Family Physician with Maternity Care and Obstetrics experience. Join our group of 10 residency-based family physicians and 3 family physicians in community practice who deliver babies. Two family physicians are fellowship-trained and provide Cesarean sections and high-risk backup to our group. Additional backup is provided by our OBGYN colleagues with whom we have a strong and collaborative relationship. Our residency provides one of the more robust OB experiences in the Northeast for our 13-13-13 residency program. Highland Hospital delivers approximately 2500 babies per year and has a lower Cesarean rate than the NY state and national average. Our longstanding Surgical Obstetrics fellowship has expanded from 2 to 4 fellows per year with a new emphasis on training physicians for rural practice funded by our recent HRSA grant.

The responsibilities of this position will include inpatient and outpatient obstetrical management; newborn care; and teaching of fellows, residents, and medical students. Candidates with surgical fellowship training are encouraged and eligible for surgical privileges though this is not required. Candidate must have an MD/DO or equivalent degree with board certification or eligibility in Family Medicine. The applicant must be eligible for a NY state license. A post-offer health assessment and drug testing is required to be performed on-site.

The Department of Family Medicine (DFM) is committed to becoming an Anti-Racist department, consistent with the guidelines of the URMC Equity and Anti-Racism Action plan. EOE Minorities/Females/Protected Veterans/Disabled

MEDICINE of THE HIGHEST ORDER

Are you looking to play an integral role in the health of your patients? Would you like resources and world-class support at your fingertips to put the right care in place for your patients at the right time, every time?

UPMC Community Medicine, Inc. (CMI) and Renaissance Family Practice- UPMC (RFP) are seeking Family Medicine Physicians to join their network of Primary Care Practices located across Southwestern Pennsylvania in urban, suburban and rural communities.

When you work for CMI or RFP, you can expect:

- Base salary compensation with the opportunity to earn additional incentives, including a quality-based Value Incentive Plan, and an APP Utilization Plan.
- Benefit highlights: Medical/dental/vision that starts on day one, FSA/HSA, Employer-paid short and long-term disability, Life Insurance/AD&D, \$4,100 each year for CME, and 10-days of paid-parental leave.
- Time off: 25 days of PTO/CME time that is front loaded on day one.
- Retirement planning: 403(b) retirement plan that matches 50% of the first 6% you put in AND an Employer-paid pension plan. Participate in both!
- Full-time includes 36 hours of patient facing clinical time Monday through Friday and 4-hours of administrative time per week.
- Resources: Easy referrals to social work, behavioral health, nutritionists, and specialists, along with in-practice access to diabetic retinal exams read by an Ophthalmologist.
- Support from a team of administrative professionals responsible for practice operations.
- Physicians working in Southwestern Pennsylvania often choose to live outside Pittsburgh in one of the 90 city suburbs, enjoying the benefits of small-town life, including quiet neighborhoods and a lower cost of living. The area offers many highly rated public and private school opportunities, as well as more than 30 college and university options.

Job Requirements:

- Medical Degree (MD/DO)
- Accredited **Family Medicine** Residency Program completion
- Board Certified in **Family Medicine** (or board eligible for residency new graduates)
- Unrestricted Pennsylvania Medical License
- DEA certification

About UPMC:

- UPMC is a world-renowned, nonprofit health care provider and insurer committed to delivering exceptional, people-centered care and community services.
- Headquartered in Pittsburgh and affiliated with the University of Pittsburgh Schools of the Health Sciences, UPMC is shaping the future of health through clinical and technological innovation, research, and education.
- Dedicated to advancing the well-being of our diverse communities, we provide nearly \$2 billion annually in community benefits, more than any other health system in Pennsylvania.
- Our 100,000 employees — including more than 5,000 physicians — care for patients across more than 40 hospitals and 800 outpatient sites in Pennsylvania, New York, and Maryland, as well as overseas.
- UPMC Insurance Services covers more than 4 million members, providing the highest-quality care at the most affordable price.
- To learn more, visit UPMC.com.

To learn more about this opportunity, please email your CV to Ashleigh Sager, Project Manager- Physician Network Development, at sageram2@upmc.edu.

Program Director, UPMC McKeesport Family Medicine Residency Program

McKeesport, Pennsylvania

The Director of the Family Medicine Residency Program is responsible for the overall direction of the Family Medicine Residency Program. This is a faculty position combines an emphasis on clinical teaching and outstanding administrative skills.

Position Responsibilities

The residency program director is responsible for the implementation of the program's mission, articulating the educational philosophy of the program, and curricular development. All family medicine residency program faculty members are accountable to the program director for their activities in residency education, including clinical supervision of residents. Most of the program director's time will be devoted to the administrative oversight and non-teaching duties of the program.

Job Requirements

- Specialty expertise in Family Medicine and at least three years of documented educational and/or administrative experience
- Board Certified in Family Medicine by the American Board of Family Medicine or by the American Osteopathic Board of Family Physicians.
- ABMS and AOA Certification
- Ongoing clinical activity with previous leadership experience
- Unrestricted Pennsylvania Medical License
- DEA certification
- Accredited Family Medicine Residency Program completion
- Medical Degree (MD/DO)

About UPMC

- UPMC is a world-renowned, nonprofit health care provider and insurer committed to delivering exceptional, people-centered care and community services.
- Headquartered in Pittsburgh and affiliated with the University of Pittsburgh Schools of the Health Sciences, UPMC is shaping the future of health through clinical and technological innovation, research, and education.
- Dedicated to advancing the well-being of our diverse communities, we provide nearly \$2 billion annually in community benefits, more than any other health system in Pennsylvania.
- Our 100,000 employees — including more than 5,000 physicians — care for patients across more than 40 hospitals and 800 outpatient sites in Pennsylvania, New York, and Maryland, as well as overseas.
- UPMC Insurance Services covers more than 4 million members, providing the highest-quality care at the most affordable price.
- For more about UPMC, visit UPMC.com.
