CDC/DHS:

I am urging [the CDC] [the Department of Homeland Security] to stop using Title 42 as an excuse to deny people at our border the right to seek asylum. Over 1300 medical providers have publicly stated that this is completely unnecessary and our public health can be protected without denying people fleeing from threats of violence and death the legal right to apply for asylum. Forcing these people to wait in Mexico for hearings, where they have been victims of kidnapping, rape and extortion has further put their lives in danger. So MPP must also be ended immediately. The administration MUST take a more humane approach to allow immigrants the internationally recognized legal right to seek asylum.

LEGISLATORS:

I am urging [Sen.____/Rep.____] to put pressure on the Biden administration to stop using Title 42 as an excuse to deny people at our border the right to seek asylum. Over 1300 medical providers have publicly stated that this is completely unnecessary and our public health can be protected without denying people fleeing from threats of violence and death the legal right to apply for asylum. Forcing these people to wait in Mexico for hearings, where they have been victims of kidnapping, rape and extortion has further put their lives in danger. So MPP must also be ended immediately. The administration MUST take a more humane approach to allow immigrants the internationally recognized legal right to seek asylum.
