

MENDOCINO COUNTY - GENERAL SERVICES AGENCY

MONTHLY OPERATIONAL UPDATE – OCT/NOV 2023

GENERAL SERVICES AGENCY

A Safe and Healthy Community

GSA completed sustainability training and outreach with Public Health. The goal is to bring awareness to the County's sustainability policy, Policy No. 44 as well as changing State regulations. GSA will continue to provide departments ongoing training.

Departments can reach out to General Services Agency, Central Services by calling 707-234-6050 or by emailing generalservices@mendocinocounty.gov to schedule a presentation. GSA is ready to answer any questions County staff may have regarding sustainable practices. GSA is ready to answer any questions County staff may have regarding sustainable practices.

Facilities and Fleet Division Update:

- Facilities Staff worked with a local tree company to remove the many dead and dying hazardous trees from the entrance area of Low Gap Park. The play area is now a safer and more enjoyable place for the families of Mendocino County.
- Facilities Staff completed an emergent repair to a cell in A Mod when the shower floor started to collapse. The Facilities team was able to lift the floor level and weld in additional structural supports.
- Facilities is currently working with a contractor to repair the damage to one of the Jails padded isolation cells. The work is estimated to cost \$5,327.
- Facilities is currently working with a contractor to correct a long-time electrical deficiency at the Ukiah Library. The contractor will be upgrading the number of available outlets for the public computer bank to ensure the computers stay available to the public but are electrically safe. The estimated cost of this work is \$6,808.
- Facilities staff is working with several departments to coordinate multiple moves condensing and streamlining the footprint the County currently has in Willits.

Mendocino County Regional Parks Update:

Indian Creek Campground is now closed for the remainder of the season. It will be back open for overnight camping in early April.
