

A Safe & Healthy County

Maternal, Child & Adolescent Health (MCAH):

- Responded to Child Death Review Team recommendation to develop Safe Sleep and Cannabis Breastfeeding guidance.
- Y3 evaluation of Promotores Home Visiting Innovation project focused on culturally congruent support for parenting Latina women and their families, living in rural communities.
- Initiated stakeholder consultation to convene around rural access to perinatal care through remote residency opportunities.
- Coordinated with FIRST5 Mendocino around CDPH Perinatal Equity initiative and DHCS CalAIM Doula initiative; seeking collaboration with Counties piloting programs through Black Infant Health programs to adapt to local models for outreach to under-served populations.

2-1-1 Mendocino:

Calls received from all regions of the county, 62% of those requesting information were in the 30-54 age group. Top 3 requests were related to Housing, Mental Health/Substance Use Disorders, and utilities assistance.

Women, Infants & Children (WIC): Current Case-load 2,350

Caseload vs Participation
