

# MENDOCINO COUNTY - GENERAL SERVICES AGENCY

## MONTHLY OPERATIONAL UPDATE – JUNE 2023

### GENERAL SERVICES AGENCY

#### A Prepared and Resilient Community

Staff worked with a contractor for a repair to the roof of the Juvenile Hall that happened this month when a seized exhaust fan motor caused smoke to be seen on the roof. Total cost was \$8,640.

Staff is working with a local contractor to perform repairs to the failed Backflow devices located in Willits at several County facility locations. These will help ensure the public water system in Willits is as safe as possible.

Landscaping staff is taking action to restore irrigation to the many beautiful landscapes of the County Facilities. The initial push is for the areas primarily focused on the visiting customers.

**Measure B Project:** The psychiatric Health Facility at Whitmore Lane site is in design. Bids for demolition of the existing building at the Whitmore Lane site were received in May; hazardous material remediation work is in process, demolition work is expected to be completed this summer and fall. Bidding for the new construction is planned for early 2024. Project completion is currently projected for late-2025.

Staff has begun work to develop the next Microwave Site hardening projects funded by the CDBG Mitigation and Resiliency grants and PG&E settlement funds. Site visit and evaluation at Sanel Peak is scheduled in July 2023.
