

## **Prepared and Resilient County**

July 14 Outreach van will be at the City of Ukiah's Movie in the Park event at Vinewood Park with the pop-up library, take and make kits, and library card sign-ups.

Through July 24, Coast Community Branch Library in Point Arena is participating with libraries nationwide in a pen pal program that pairs patrons of similar ages from libraries across the country to exchange regular postcards mailed by the library. This introduces our community to people in other locations, broadening their minds and increasing individual resiliency with friendships.

Every Wednesday in June and July at 2:30 p.m. Coast Community Branch offers a DVD lecture series by Professor of Biology Greg Pryor on everything from beekeeping to vegetable gardening, including preserving food, making candles, and establishing small vineyards, enabling our community to be more resourceful and resilient.
