Effective January 1, 2027: Non-Diabetic GLP-1 Changes

Beginning January 1, 2027:

GLP-1 medications prescribed solely for weight loss will no longer be covered under the County's medical plan. This change applies to medications prescribed for weight management in individuals without a diagnosis of diabetes.

Members who are prescribed GLP-1 medications for the treatment of Type 2 diabetes will continue to have coverage in accordance with their health plan benefits and medical necessity requirements.

If you have any questions, please contact Employee Health Benefits by emailing: employeehealthbenefits@mendocinocounty.gov
