

Mendocino County Air Quality Management District

Community Air Protection Program Virtual Public Workshop

Date: April 5th, 2024, 6-7 PM

Join MCAQMD staff for a presentation about the Community Air Protection Program. CAP Incentives funds are available to improve air quality and reduce air pollution exposure in our communities. Projects are selected based on community input, benefit to disadvantaged communities, and eligibility under program guidelines. In this virtual workshop, attendees will learn about project types that are eligible for CAP Incentives funding, and have the opportunity to suggest projects that will benefit our local communities.
