

Building Workplace Connection — 2nd Annual Ugly Sweater Contest

A thriving workplace culture depends on strong connections among employees. When staff collaborate effectively and feel part of a team, they work more enthusiastically and build bonds that break down departmental silos, fostering greater communication and collaboration.

To support these goals, the County's Leadership Initiative is pleased to announce its second annual **Ugly Sweater Contest**, a holiday contest designed to bring employees together in a fun and festive manner. More than just a lighthearted activity; it provides an opportunity to build relationships, celebrate individuality and creativity, and promote a sense of belonging among all employees.

This effort aligns with the County's broader commitment to fostering an inclusive and connected workplace environment, where shared experiences contribute to a stronger and more cohesive organizational culture. We look forward to seeing the creativity and enthusiasm this contest will inspire while strengthening the bonds that make our workforce exceptional.
