

## BTS-07: Argentina Cast & Blast for 4 Persons

4-Day/4-Night Argentina Cast & Blast Package for 4 Persons (includes 3 days of high-volume Dove Shooting and 1 day of Golden Dorado fishing, for a total of 8 excursions per hunter/angler).

Our private dove fields are close to the roosts of millions of non-migrating eared doves, and it is not uncommon to shoot over 1,000 shells during a day of dove shooting (and some shoot many more!). A typical morning + afternoon dove shoot also includes a hearty lunch in the field where our chef prepares a traditional "Asado" featuring different varieties of Argentinian meats.

Golden Dorado fishing is considered one of the most exciting and exhilarating types of freshwater sport fishing in the world. Whether fly fishing, bait casting or spin casting, once hooked your challenge is in landing the fish due to its intense fighting strength and acrobatic jumps. There is no other freshwater species as combative as the Golden Dorado! While fishing for Golden Dorado, chances are also high that you will catch the "ferocious and toothy" Piranha that inhabit the wild and untamed Parana River.

Situated on the banks of the majestic Parana River in the province of Santa Fe, Argentina, our lodge provides first-class and comfortable accommodations including private baths/showers. The food provided by the lodge chef is absolutely delicious and includes a variety of dishes, including mouthwatering Argentinian beef. Evening dinners, though casual, are a gourmet experience accompanied by Argentina's fine wines. You will never go hungry here!

From our friendly lodge staff determined to provide the professional service our guests expect and deserve, to our experienced local hunting and fishing guides, our entire team is dedicated to providing you the trip of a lifetime!
