Nominate Your Collegues for MassAFP Awards!

Hello MassAFP Members!
As we prepare for our Annual Meeting in March, it is once more time for members to nominate their colleagues, residents, and students for MassAFP Awards.
Please reach out to me with your nominations for the following awards, including a letter describing why your nomination is a great candidate for the award. Please submit all nominations **by November 25th.**

1. **Family Physician of the Year:** To recognize a physician member's long-time dedication to furthering the specialty of Family Medicine through excellence in care, community engagement and support of new physicians in the specialty.
2. **Preceptor Hall of Fame:** To recognize a physician who has exemplified the tradition of "Physician as Teacher", generously, and at a high level, for several decades.
3. **Family Medicine Educator of the Year:** Recognize a physician who exemplifies the tradition of Physician as Teacher generously and at a high level.
4. **Advocacy/Public Health Award - Attending:** This award recognizes the efforts to advocate on behalf of patients or the specialty of family medicine. This person may have worked to bring awareness to an issue in public health or impacted access to care. This recognizes advocacy at the local, state, and/or national level.
5. **Advocacy/Public Health Award - Resident:** This award recognizes the efforts to advocate on behalf of patients or the specialty of family medicine. This person may have worked to bring awareness to an issue in public health or impacted access to care. This recognizes advocacy at the local, state, and/or national level.
6. **Advocacy/Public Health Award - Medical Student:** This award recognizes the efforts to advocate on behalf of patients or the specialty of family medicine. This person may have worked to bring awareness to an issue in public health or impacted access to care.
7. **Innovation in Family Medicine Award:** The recipient of this award is recognized for innovation in any aspect of Family Medicine, including care delivery, population health, education, technology integration, practice efficiency/sustainability, or patient experience.

Many thanks,
Andrew D'Amour - MassAFP Chapter Executive
