

Clinical Pharmacy Updates - SmartPhrases

.MTMBRIDGEPROGRAM

- Provides all information about the Medicare Bridge Program
- Includes prior authorization criteria, how to order and the prior authorization process

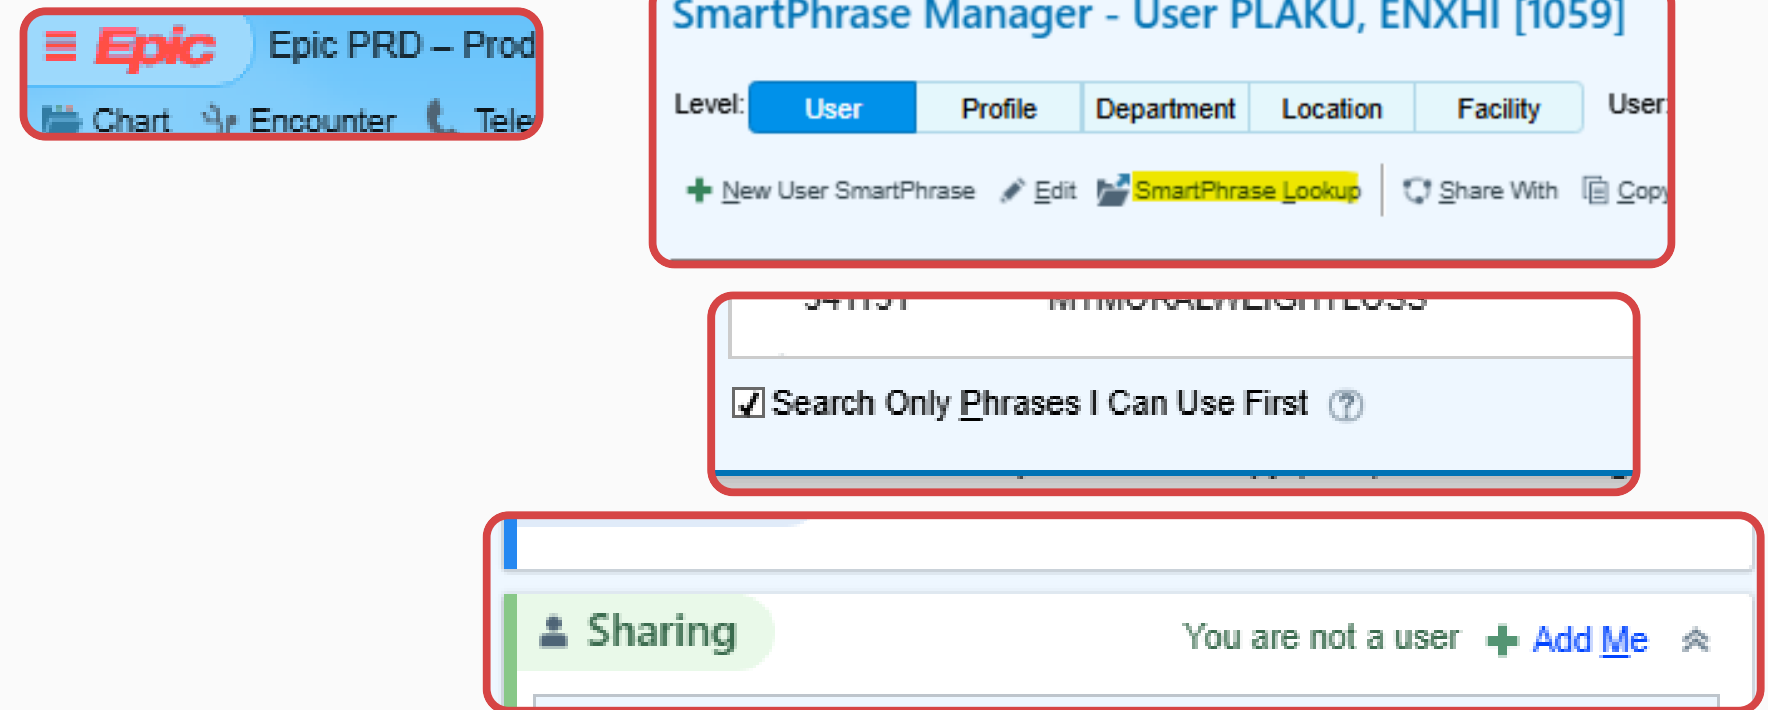

.MASSHEALTHGLP1PA

- Developed to be used in clinical notes for prior authorization documentation
- Can be used to help determine if patients with MassHealth Medicaid plans qualify for non-T2DM GLP1s

.WEIGHTLOSSGLP1DENIAL

- Developed to be used as patient facing information when a GLP1 is denied (e.g., MyChart messages, or AVS)
- Includes cash pricing through manufacturer pharmacies (no other lower pricing available)

How to Add Yourself to a SmartPhrase

1. Click the EPIC button in the top left; search for SmartPhrase Manager
2. Then click SmartPhrase Lookup and search for one of the SmartPhrases. Make sure to unclick “search only phrases I can use first” at the bottom.
3. Select the SmartPhrase and hit “accept”
4. Then under Sharing click on “add me” and add your name to the list
