Each month a different technique will be demonstrated with tips on various ways to do the same technique. You will get a free pattern that utilizes the technique. You can use these patterns to practice - maybe turn them into wall hangings or table toppers. Or you can save all the projects and at the end of the year they will fit together into a lap size quilt.

In January we will be focusing on making half square triangles to perfection.

Janet will demonstrate five different ways to make half square triangles and explain how you can convert any pattern into the method you like best.

February will cover Applique - from beginner to advanced and everything in between.

Truly, every quilter or quilter wannabe should sign up for the whole year of Technique Tuesdays!
