

In Alignment with the Health Care Compliance Association, McLaren is recognizing Corporate Compliance & Ethics Week November 3-9, 2024. The core principles of the week are awareness, recognition, and reinforcement. The week will be celebrated with several fun and informative activities. Thank you to the entire McLaren team for ensuring Compliance is not additional functions we do, but a part of how we work each day. I would especially like to thank the direct Compliance Staff for their leadership and commitment to driving an outstanding Compliance Program at McLaren Health Care.

Daniel Gillett – Vice President of Compliance
