

Applying research to life: a research
symposium for patients and families
interested in childhood disability research

CanChild and Kids Brain Health Network are excited to announce Luke's Legacy Family Research Rounds, a series of monthly virtual research presentations for families, patients and researchers. Presentations are designed in a family-friendly format with an interactive discussion component.

On **Wednesday June 23 @ 7 p.m. EST** (Ontario time) join **Sam Noyek** to hear about **Youth Telling Their Stories in Research:** the self-expressed stories of non-speaking youth.
