## PARISH DAY SCHOOL

“Do what you do so well, that people can’t resist telling others about you.” -Walt Disney

Dear Redeemer Community,

October 1<sup>st</sup> marked the beginning of admissions season at Redeemer. Applications for new students are arriving, and school tours have begun. Feedback we hear from prospective families consistently revolves around the quality of our program and the joy that radiates from the students and teachers.

Redeemer is a positive and energetic environment where children discover that learning is fun. With low student-teacher ratios, we work within the context of individual pacing and learning style, emphasizing the development of the whole child. We have a solid reputation within our community for the strong academic foundation we provide, as well our wonderful ability to promote social and emotional growth.

We are also proud to be a preschool with kindergarten and pre-first offerings. As the oldest children in the school, these students are provided ample opportunity to develop skills of leadership, responsibility, and independence. Redeemer’s kindergarten and pre-first students are appropriately challenged while still having the time, space, and ability to be young learners. It is the gift of a lifetime!

Whether leaving after the fours, kindergarten or pre-first, we hear time and time again how prepared our students are for their new schools. They find success in all types of programs, whether they attend independent, public or parochial schools. It is a source of great pride for us.

Our program at the Parish Day School is second to none, and we have found that our current families are our best marketing tool. We very much appreciate all that you do to promote our school. Please encourage interested friends and family to call the school to set up an appointment.

Have a great weekend!

Best regards,  
Mary
