ASSIGNED RESOURCES											
Engines:	262	Water Tenders:		43	Helicopters:	14	Hand Crews:		43	Dozers:	27
Other:			29			Total Personnel:			2,326		
CURRENT SITUATION											

Firefighters continued working to strengthen control and containment lines on Friday ahead of an anticipated change in the weather. Fire personnel have been adding depth to existing lines with mop up operations extending up to three-hundred feet into the interior where possible. Crews continue to build handline and conduct mop up operations in the Desolation Wilderness, Convict Meadow, and Lake Margaret areas in an effort to secure the fire's edge.

Crews are patrolling areas that have been contained and responding to calls for service from citizens who have returned to their homes. Heavy, downed fuels continue to burn well within the fire perimeter and are not a threat to the fire's edge. These pockets of heat may produce additional smoke with higher winds and will be monitored by fire personnel. Firefighters are working with contractors and utility providers to remove hazard trees and repair infrastructure, such as powerlines, along Highway 50. Work continues along the Mormon Emigrant Trail to ensure public safety before reopening the trail.

A low-pressure system will bring an increase in winds and relative humidity Saturday night through Sunday morning. Lower elevations will see winds 20 to 25 m.p.h. while ridgetops could see gusts to 45 m.p.h. Light rain showers may develop overnight continuing into Sunday morning. Rainfall amounts between .10 and .20 inches are possible.

### USFS FOREST INFORMATION

- **El Dorado National Forest:** The Eldorado National Forest forest-wide closure (03-21- 14) remains in effect until September 30. Access and orders will be refined over time.MORE:  
<https://www.fs.usda.gov/eldorado/>
- **LTBMU:** The Lake Tahoe Basin Management Unit closure order (19-21-05) remains ineffect for the following backcountry areas: Desolation Wilderness, Meiss Country, Barker Pass and McKinney/Rubicon through Sep. 19, 2021. Access and orders will be refined over time. MORE:  
<https://www.fs.usda.gov/ltbmu/>

A **Burned Area Emergency Response Team (BAER)** has started evaluating the Caldor Fire area. This is a rapid assessment of burned watersheds by a BAER team to identify imminent post-wildfire threats to human life and safety, property, and critical natural or cultural resources on National Forest System lands and take immediate actions to implement emergency stabilization measures before the first post-fire damaging events.
