

### **Jojo and Robert Kusch**

I grew up here in VB and before moving back in 2012, Jojo and I had visited often since he was a puppy. He was 6 years old when we became full time residents and remembers the early days of the dog park when there was no fence and lots of tall grass.

Jojo is now 16 1/2 years old, still very active, and very vocal in his support for going to the park daily.

Jojo's family has grown in recent years, he has a little brother Herring, a 7 1/2-year-old Cavapoo, coincidentally sharing the same birthday on December 2, only nine years apart. And best of all, and after my marriage to my wife Liz last year, Jojo has a new mommy!
