Scholar Spotlight

Ava Gordon **Norristown Blockson Chapter**

Ava Gordon is an 8th grade student at Blockson Middle School where she has earned Honor Roll status. A very talented and involved student, she plays the harp, piano, and flute, and also plays soccer and is involved in the school play this year.

This is Ava's first year with YMWIC and says, "It's a fun Program that teaches you so much while also making it fun." She most enjoys the interactive assignments she takes part in with other Scholars and says that being a member has taught her to never take time for granted. Her advice to new or younger Scholars is, "Try your best. In the beginning it will be challenging, but you must just push through."

In the future, Ava would like to pursue a career in business and finance and is considering Duke University and Brown University. In her spare time, she likes to sleep and catch up on missed shows.

Welcome to YMWIC, Ava; keep having fun while learning.
