Scholar Spotlight

Zachary B. Williams **Norristown Blockson Chapter**

An Honor Roll student who is a 6th grade Student of the Month, **Zachary B. Williams** attends East Norriton Middle School. As a matter of fact, he has been honored as Student of the Month in each grade since starting school! Having joined YMWIC this Program Year, Zachary most enjoys the activities related to Science and Math. He appreciates that the Foundation's staff and volunteers provide tutoring before his math tests, saying, "These are great reviews that make me feel confident when I take a test." He adds, "The Foundation's staff and resources have helped me keep track of my grades and study habits."

Zachary's advice to younger YMWIC Scholars is, "Don't give up. That is not an option, now or later in life. When things get difficult, you must keep going." To others who are considering whether to join, he says, "Meeting the requirements of being a YMWIC Scholar are challenging, but being a part of the Foundation is worth it. I see that my grades have improved, and I know this Program is supporting me."

Zachary would like to pursue becoming a Video Game Developer or Designer and is planning to look at colleges offering that field of study. He has many other interests and talents including playing soccer (he is a defensive midfielder) and playing basketball; he's preparing to improve his skills in 2025. He has played the trombone since the 3rd grade and likes to sing and perform in musical theatre. He is proud to tell us that, last Spring, he played *three* characters in his school's production of The Wizard of Oz.

In addition, of course, he enjoys playing video games, saying, "I enjoy playing with friends and cousins who live in other states. We usually meet up online to play Roblox." He also likes to watch episodes of various shows on TV with older brothers, Kenon and Evan.

Stay focused; and keep working hard and having fun, Zachary. You are an asset to the Foundation.
