April 2026 Scholar Spotlight

Eileen Aurelien Furness Chapter

Eileen Aurelien is a 9th-grade scholar at Furness High School who joined YMWIC this year. She has quickly become an engaged and enthusiastic member of the Foundation, especially enjoying hands-on experiments and interactive learning experiences.

Through YMWIC, Eileen has had the opportunity to meet new people and build meaningful friendships, which she considers one of the most impactful parts of her experience so far. She also takes pride in her academic achievements, maintaining Honor Roll status since 7th grade.

Outside of the classroom, Eileen expresses her creativity through art and occasionally plays the kalimba. She also enjoys spending time with friends and engaging in her hobbies. Looking ahead, she is interested in pursuing a career as an artist, though she is still exploring her college options. Eileen encourages younger and new scholars to enjoy their school year while staying focused on their studies. She describes YMWIC as a fun and enriching space where Scholars can experiment, learn new skills, and build confidence—especially when it comes to speaking in front of others.
