### **Rockeisha Logan** **Norristown Eisenhower Chapter**

This month, we recognize and give a special thank you to Rockeisha Kelsey, parent of Scholar Ariana Kelsey in our Norristown Eisenhower Chapter. The family is new to YMWIC this year. Rockeisha was introduced to YMWIC at the 5th grade Open House at Ariana's school and was immediately impressed saying, "I love what this organization represents and the opportunities it provides for its Scholars and parents to participate." She adds, "The most impactful part of the Program for me is all the dedication and commitment that has been put into the Scholars and the desire for everyone to succeed." She has also noticed Arianna has become more mindful about time management and deadlines, saying, "She gets excited to complete her study hours and holds herself accountable."

Rockeisha's advice to prospective YMWIC parents is, "Don't be overwhelmed! Help is always available; take it one day at a time and stick it out; because this Program will not only benefit the Scholar but you as a parent as well." She has the following words of wisdom to families who are new to the Foundation, "It's fun when your child sees you spending time with them while they are doing what they love. Cherish the small moments, be present and responsive to your child's needs, embrace flexibility, nurture open communication, and remember that "perfect" doesn't exist; your best is good enough. Focus on building strong loving connections while fostering a supportive and active learning environment.

We appreciate Rockeisha's dedication and contributions to the Chapter. She takes the initiative to assist when needed without being asked and frequently supports and encourages Scholars in Workshops, Project Support, and SIGs (Special Interest Groups). She has even donated snacks and carpooling services. She is truly an asset to YMWIC, and we greatly appreciate her!
