Scholar Spotlight

Fatima Gonzalez Coatesville Chapter

Our 10th grade Scholar, Fatima Gonzalez, has received multiple accolades including Honor Roll, Distinguished Honor Roll, National Junior Honors Society, and many other AFJROTC (Air Force Junior Reserve Officer Training Corps), and STEM awards and certificates. She attends Coatesville Area Senior High School and is new to YMWIC this year.

We asked Fatima why she wants to be involved in YMWIC and she replied, “I think YMWIC offers me unlimited possibilities and provides a great opportunity to take advantage of the resources and benefits the Program offers to all Scholars. I look forward to the college scholarship opportunities and participating in the workshops, all which will help me expand and enhance my education. My commitment to YMWIC is to continue being my dedicated and passionate self while taking advantage of the many opportunities offered.”

When asked about her college plans, Fatima responded, “I would like to study anything in the pre-med, healthcare, or medical field. University of Pennsylvania and Penn State University are some in-state schools I’m interested in. In reference to future plans, she says, “I would like to go to college and fulfill the requirements needed to commission into the military (Air Force) as an officer; and I would like to pursue flight nursing, since I love to travel and am a people person.”

In her free time, Fatima likes to read (her favorite books are romance novels), and she enjoys working out with friends. In addition, she has started a successful business. See details in the *Scholar Accomplishments* column below.

We thank you for choosing YMWIC, Fatima; we are delighted to have you as a member and support you in your future endeavors.
