Scholar Spotlight

Brielle Henderson **William Penn Chapter**

Brielle Henderson, an 8th grade student at Penn Wood Middle School, is in her second Program Year with YMWIC. Brielle enjoys meeting and mingling with Scholars in other Chapters at events such as the Annual Science Expo. She also enjoys opportunities to participate in activities with other Scholars in her William Penn Chapter, especially the Community Service Events and visiting Saint Vincent College. Her advice to other YMWIC Scholars is to show up and participate in workshops and events; they are fun and enriching activities.

Brielle is not sure what career she would like to pursue in the future, but she is interested in attending Spelman College. She is a cheerleader and enjoys spending time with her friends.

It's a pleasure to have you as a YMWIC Scholar, Brielle. Continue to work hard and show up, and you will be successful.
