

Scholar Spotlight

Jayden Tolbert **Norristown Chapter**

Jayden Tolbert is an 8th grade student at North Penn Middle School. What he likes best about YMWIC is how we encourage Scholars to demonstrate true leadership and accountability. Jayden says the biggest impact the Foundation has made on him was developing his ability to collaborate effectively with others.

Jayden believes that YMWIC is the perfect opportunity for students who are looking for STEM-related careers in the future and encourages younger YMWIC Scholars to keep up with their assignments and try not to procrastinate. [Read more.](#)

Jayden has earned honor roll status both last year as a 7th grade student and this year as an 8th grade student. He would like to work for NASA when he graduates from college. He participates in his school's Junior Honor Society which helps others by volunteering to participate in community service events, assisting teachers, and supporting food drives.

During his free time, Jayden enjoys reading, creating models for games, editing videos, and being with his friends. He also plays the violin and partakes in the martial arts.
