Scholar of the Month: Norrisville Chapter London Gilmer

We are proud to spotlight London Gilmer, a 7th grade scholar at East Norriton Middle School who joined YMWIC in 2025. London is already making great strides in the program and shared that one of the things she enjoys most about YMWIC is the support she receives, especially as she worked through her Science Project last year. London said the foundation has helped her learn to keep going and not give up, especially when tackling new challenges. She also shared that YMWIC is helping her better understand how the scientific method is used in everyday life which has sparked her interest in science.

When asked about her future, London shared several career interests, including cosmetology or pursuing her love of sports as a soccer or basketball player. She hopes to attend Harvard University one day

London's advice to younger and new scholars is to "keep going, do your best, and ask for help when needed." She also shared that YMWIC is a program that supports scholars in many ways, including college preparation and financial support.

Outside of school, London enjoys shopping on Amazon, playing basketball and soccer. In school she says she enjoyed learning how to play the violin. It came easy to her as she learned music quickly and can play songs like "Happy Birthday," "Twinkle Twinkle Little Star," and "Mary Had a Little Lamb."

Keep shining, London! Your hard work, positive attitude, and determination make you a joy to celebrate, and we can't wait to see what comes next.
