Scholar Spotlight

Myla Massolena **Norristown ESTLA Chapter**

Hi, my name is Myla Massolena; and I am a 12th grade student at Upper Merion Area High School. I also attend Central Montco Technical High School for Cosmetology. I joined YMWIC in 7th grade, and I've really enjoyed the college tours and the valuable lessons learned in workshops. The biggest impact the Foundation has had on me is boosting my confidence in learning and public speaking.

After graduating, I plan to attend Virginia State University or Savannah State University to study Business with the goal of owning my own salon. My advice to others is to listen and ask for help when needed because the YMWIC staff and volunteers are committed to helping you improve. The experience is fun and opens up so many opportunities for personal growth.

I've been on the Honor Roll for half of high school and all of middle school. While I don't play any sports, I did participate in Choir during middle school and 9th grade. In my free time, I enjoy hanging out with friends and catching up on sleep. Continue doing well, Myla!
