

YOUNG MEN AND WOMEN IN CHARGE  
FOUNDATION, INC.

## Parent Spotlight

Since becoming a member of YMWIC, Linda Taylor has seen remarkable changes in her daughter Faith. Once shy, Faith has blossomed into a more outgoing and confident young individual. Her favorite experiences include traveling to new places, such as the national MathCounts Competition in Atlanta, Georgia, in March 2024. This trip was not only educational but also an exciting adventure that Faith thoroughly enjoyed.

Linda's involvement with YMWIC goes beyond supporting her daughter's activities. She actively participates in various volunteer efforts, enriching the community through her dedication and hard work. The Upper Darby Chapter has undertaken numerous initiatives, such as serving food and distributing clothes at a local church, organizing park clean-up events to promote environmental stewardship, and preparing care packets with essential supplies for families in need. Linda finds great fulfillment in these activities, particularly in seeing parents and children unite to help others. She believes that teaching children the importance of volunteering is crucial, and YMWIC provides the perfect platform for this.

Linda strongly encourages other families to consider joining YMWIC, emphasizing that the Foundation offers invaluable resources that prepare children for both academic and personal success. Her family's involvement with YMWIC has been deeply rewarding, providing unique experiences and fostering a sense of community and growth.

We extend our heartfelt gratitude to Linda Taylor for her tireless contributions and for sharing her inspiring story. Linda's dedication to YMWIC and the positive impact she has on our community exemplify the spirit of our Foundation. We hope her journey encourages other families to join and experience the myriad benefits YMWIC offers.
