Scholar Spotlight

Tanejah Cooper **Chester Upland Chapter**

We are eager to feature Tanejah Cooper, a 10th grade Scholar at STEM Academy. Tanejah joined YMWIC in 9th grade and has been thriving ever since, making the most of the opportunities offered by the Foundation.

One of the highlights of Tanejah's experience with YMWIC has been the chance to build lasting friendships and travel to various schools, which has provided her with valuable insights into college life. Through the Foundation, she has grown more confident, particularly in public speaking, and has become more outgoing in both academic and social settings.

Tanejah aspires to become a psychiatrist after graduating from high school and has her sights set on Virginia State University as a potential college destination. With her dedication to academic excellence, it's no surprise that she has consistently earned Distinguished Honor Roll and Honor Roll status.

In her free time, Tanejah enjoys relaxing by listening to music, spending time with friends, and dancing. Although she currently doesn't participate in any sports or performing arts, she has expressed interest in joining the track team in the future.

When asked for advice, Tanejah encourages younger and new Scholars to pursue their passions, reminding them to always do what they love. To those unfamiliar with YMWIC, she emphasizes that the Foundation provides invaluable support in preparing for the future.

Tanejah's journey with YMWIC is a testament to her hard work, determination, and commitment to personal growth. We are excited to see her continue to flourish as part of our Scholar community!
