

YOUNG MEN AND WOMEN IN CHARGE
FOUNDATION, INC.

April 2026 Scholar Spotlight

Gabrielle Godbolt **Martin Luther King Chapter**

Gabrielle Godbolt is a dedicated 12th-grade Scholar at Martin Luther King High School and a proud member of the YMWIC program since the 11th grade. Gabrielle values the strong sense of community within YMWIC, sharing that what she enjoys most about the foundation is “the people and the experiments,” which reflects both her appreciation for connection and hands-on learning.

Through her time in the program, Gabrielle has grown more confident, noting that YMWIC has helped her become more comfortable stepping outside of her shell.

This personal growth has supported her aspirations to pursue a career in architecture, with Drexel University among the colleges she is considering for her future.

Gabrielle encourages younger scholars to “be open to any opportunities,” emphasizing the importance of taking advantage of everything the program has to offer. She also describes YMWIC as a place for those seeking community and commitment, highlighting the supportive environment it provides.

In her free time, Gabrielle enjoys art, listening to music, reading, watching TV, and playing games - creative and relaxing outlets that complement her thoughtful and driven personality. We are proud to spotlight Gabrielle and celebrate her growth, ambition, and contributions to the YMWIC community!
