Scholar Spotlight

Olaoluwayemi Dayo **Upper Darby Chapter**

Olaoluwayemi Dayo has begun his senior year at Haverford High School and has earned Honor Roll status each year. He is a member of the National Society of High School Scholars (NSHSS), the National Business Honors Society (NBHS), and National Science Honors Society (NSHS). In addition, he:

- Received a \$250 Accounting Career Awareness Program (ACAP) Book Scholarship
- Received the Presidential Medal (Middle School Graduation)
- Admitted to the Gifted Individualized Education Plan (GIEP)
- Admitted to Delaware County Technical High Schools' Medical Careers Program

Olaoluwayemi joined YMWIC as a freshman. When we asked what the biggest impact he has experienced as a member, he replied, "The biggest impact this Foundation has had on me was through the College Tour during Spring Break. It really helped open my eyes to what I would need to do during senior year. It also gave me a goal for what I'm trying to accomplish other than earning good grades and having a good time with my friends. During my visits to the colleges, I realized I had to step up what I'm doing if I want to have a good chance of getting in." As a member, he has committed to the goals of completing each element of his Science Expo Project earlier than the due dates, attending as many workshops as he can, and doing his best during the workshops and Community Service events.

When asked about what colleges he is interested in attending and his major, Olaoluwayemi says, "Right now, I'm looking at majoring in Biology on a Pre-Med track. Some colleges I have in mind are Harvard University, Boston College, University of Pennsylvania, Dartmouth College, Temple University, and the University of Chicago." He added, "I would like to be a doctor when I grow up."

In his spare time, Olaoluwayemi says he really enjoys reading books, playing games and solo running.

You have worked very hard; and we have observed your growth, Olaoluwayemi. We know you will do well in the future.
