### **Quintin Tolbert** **Norristown Blockson Chapter**

Quintin Tolbert is the father of Scholar Jayden Tolbert, a junior at North Penn High School. The Tolbert family joined the YMWIC Norristown Chapter in 2020 and has been very involved within the Chapter, volunteering to assist at many Foundation Events and Community Service Projects including: cleaning up the park in Norristown annually, a Sock Drive, volunteering at the Food Pantry, gathering clothes for donations, and adopting a family for The YMWIC Annual Holiday Giving event.

When asked why they decided to join, he responded, “We joined YMWIC to provide Jayden additional avenues for overall growth, STEM education, community engagement, and college preparation.” Mr. Tolbert adds, “I have witnessed Jayden go from a quiet kid in social spaces and events to displaying a confident demeanor in those similar situations. He has grown in his adaptability to his surroundings, public speaking, and exploration of interests he likes without concerns of peer pressure.”

To other families who are considering whether to join YMWIC, he advises, “YMWIC will provide your child an avenue to explore social group development, while exposing them to STEM, and providing tutoring and mentoring. I would strongly recommend YMWIC as an essential resource to assist with our youth’s overall development. We owe it to our youth to provide opportunities so they are prepared for the future. YMWIC is a program designed to foster the development of our children.”
