Scholar Spotlight

William DeJesus Sandoval
Furness High School Chapter

William Dejesus Sandoval is a 10th-grade Scholar at Furness High School and a proud member of the YMWIC Foundation. Now in his second year with the Program, William continues to take full advantage of the workshops, events, and chapter meetings offered through YMWIC. He values the opportunity to build friendships, explore new environments, and challenge himself to grow both academically and personally.

Through YMWIC, William has strengthened key skills such as time management, organization, and communication—qualities that have helped him stay on top of his responsibilities and prepare for upcoming opportunities. His commitment to learning is evident. He consistently earns high marks and is currently enrolled in English Honors, continuing to build a strong foundation for his future.

William plans to pursue a career in engineering and is already developing the focus and discipline needed to reach that goal. His thoughtful approach to learning and willingness to take initiative demonstrates the confidence of a young leader in progress.

Outside of academics, William enjoys playing electric guitar, going to the gym, and unwinding with video games. His advice to younger or new Scholars is simple but impactful: *"Don't be shy to speak up or ask for help."* He encourages others to join YMWIC if they're looking for something purposeful and fun to do after school: *"The events are fun, and you'll learn so much."*

William's enthusiasm, curiosity, and steady growth make him a standout example of the promise and potential YMWIC helps Scholars bring to life.
