Scholar Spotlight

Vanessa Martinez **Phoenixville Chapter**

Vanessa Martinez is new to YMWIC this Program Year. She is in the 9th grade at Phoenixville Area Middle School. A hard-working and dedicated student, Vanessa is committed to her education and preparing for college. That is one of the reasons she joined YMWIC. She enjoys the warmth she has experienced at workshops and events and appreciates that she gets time to focus on her work during Project Support.

Vanessa says that YMWIC is a friendly Program and beneficial to Scholars by providing help with schoolwork and college scholarships. She advises new or younger YMWIC Scholars to stay on top of scheduling and deadlines.

Vanessa would like to study Business Management and Coding in college, although she doesn't currently have any colleges in mind. She intends to utilize all that YMWIC has to offer to expose her to many colleges and help her when making her decision. In her spare time, she enjoys playing soccer and is on her school's soccer team. She also enjoys arts and crafts, spending time with family and friends, and caring for and playing with her dog.

We appreciate Vanessa's dedication and look forward to helping her shape her future.
