Scholar Spotlight

Zhiyonna Sutton **Chester Upland Chapter**

Zhiyonna is a Chester STEM Academy 9th grade student who joined the Program earlier this year. As a Distinguished Honor Roll student, she has really enjoyed her time at YMWIC and all the cool things she's learned.

Although she has a few years left before graduation, Zhiyonna has her career sights set on attending one of the colleges associated with Penn Medicine and becoming a pediatrician. Zhiyonna says she is most excited about how welcoming everyone at the Foundation has been, because she loves meeting new people and learning new things. Her advice for new Scholars, "Don't be nervous; if you believe in chasing your career goals, then you should join YMWIC. It is so much fun."

We're happy that you are enjoying the Foundation's educational activities while increasing your knowledge, Zhiyonna.
