Scholar Spotlight

Emily Krueger
Phoenixville Chapter

We welcome Emily Krueger to YMWIC this Program Year. She is an 11th grade student at Renaissance Academy Charter School. Emily is proud of earning Distinguished Honor Roll status and having the highest school GPA in her previous high school years. She plays the trumpet, having played since she was in the 4th grade, and is a member of the Environmental, Reading Olympics, and Academic Decathlon Clubs.

Emily is taking advantage of what YMWIC offers her saying, “It keeps me accountable and gives me a structured time to study, which is very useful at this point in high school since there are so many distractions. It also seems like the STEM activities will be fun.” She says that being a member has provided her with, “MUCH needed time separate from my free time to actually focus in an effective environment.” Her advice to other Scholars is, “Utilize the time you spend at YMWIC, and it can be very helpful. Ask questions when you have them, and don’t be afraid to reach out; because someone friendly will answer.”

Emily is not sure what college she may want to attend, but is interested in majoring in the fields of Psychology or English. In her spare time, Emily says that she loves to read, listen to music, bake, and hang out with friends and family.

We’re happy that you chose YMWIC, Emily, and are taking advantage of the many opportunities we offer. Keep up the good work!
