Scholar Spotlight

Ethan Kwok **West Chester Chapter**

Featured in this month's Scholar Spotlight is Ethan Kwok from the West Chester Chapter! Ethan is currently in 3rd grade at Hillsdale Elementary School, and this is his very first year as a Scholar at YMWIC Foundation, Inc.

Ethan is very involved in the Robotics Program, the STEM activity he enjoys most as a YMWIC Scholar. The biggest impact the Foundation has had on him is his ability to become more confident in his public speaking skills. Advice Ethan would give to younger or new Scholars, "Have your tasks completed and submitted on time." He would recommend YMWIC to anyone and would encourage them to give it a try.

Ethan is active outside of YMWIC and currently enjoys playing soccer, practicing the violin and piano. During his free time, Ethan always enjoys a good book, practicing his violin, and playing video games.

Ethan, we look forward to watching you grow, develop, and succeed!
