FOUNDATION, INC.

## YMWIC Pre-Apprenticeship Program

After five months, our pilot Pre-Apprenticeship Program is progressing well. We are off to a great start thanks to relationships we have forged with our Partners. We thank these volunteers for their dedication to the Program and the success of the participants. The inaugural participants have had exposure to and training in IT Cybersecurity, Manufacturing, and the Engineering and Technical fields. On the Professional Development side, they have participated in workshops about Financial Literacy, Entrepreneurship, and more. Activities have included a Machining and Manufacturing workshop (photo upper left), a visit to the headquarters of Partner LaFrance Corp corporate product branding in Concordville, PA, (photo upper right), a visit to Jabil, a healthcare products and solutions company in West Chester, PA, (photo lower left), and a business dinner with members of the YMWIC Board of Directors (photo lower right).

# YMWIC Pre-Apprenticeship Program

Looking forward, our goal for next year is to develop more robust programming. We are now accepting applications for the 2025-2026 Program Year. If you are a YMWIC Alumni or young adult aged 18-25 with a High School Diploma or GED use [this link](#) to register.
