Scholar Spotlight

Ashley Pulido **Furness High School Chapter**

We welcome Ashley Pulido of Furness High School where she is in the 12th grade. This is her first year with YMWIC and she is most enjoying spending time with other Scholars and the experiments she takes part in during workshops and for her Science Expo project. She says that being a member of the Foundation has motivated her to go out and learn new things. She would tell others who are considering YMWIC is, "Join; it's fun!"

Ashley would like to pursue a career in the construction field and enjoys playing soccer and spending time with her family.

We appreciate you Ashley and are here to help you as you move on to future endeavors.
