Scholar Spotlight

Paloma Rodriguez **West Chester Chapter**

Paloma Rodriguez is an enthusiastic 3rd grade student at Glen Acres Elementary School; her favorite subject is writing. This is her first Program Year as a YMWIC Scholar; she is enjoying it very much and acquiring new skills. She is excited about taking part in all the Foundation offers to her, especially learning the Credo and participating in art, math (multiplication is her favorite), and reading activities.

Looking to her future, Paloma envisions being a restaurant owner/chef, and has her sights set on attending West Chester University of Pennsylvania. Other activities she enjoys include gymnastics, swimming, and playing with her sister.

Continue being proud of yourself and your accomplishments, Paloma. We at YMWIC support you and are proud of you as well.
