

Scholar Spotlight

Dayanis Morales Norristown Chapter

Dayanis Morales attends Norristown Area High School where she is in the 9th grade. This is her second year as a YMWIC Scholar. She says, “I love spending time with others and creating everlasting relationships and memories. My membership in the Foundation has helped me grow as an individual and increase my social skills.” Dayanis is one of our Junior Editors who writes articles for the YMWIC monthly newsletter. You can read her narrative stating her case to fellow students as she ran for President of DECA (Distributive Education Clubs of America) at NAHS. By the way, SHE WON!

Her advice to potential YMWIC Scholars is, “YMWIC is a great Program that will not only help you during the College Application Process but will also assist in developing essential skills that are critical in life outside of school.” She advises them to join the Program and get involved, because there are so many educational and fun activities they can do and like-minded people to become friends with.

Dayanis says, “I’m overjoyed with my win to be voted in as President for my school’s DECA Chapter, which is a business organization.” After high school graduation and college, she would like to become an Environmental Engineer. What she enjoys most is running track, doing cheers, and dancing. In her spare time, Dayanis enjoys taking walks and sleeping.

Congratulations on your win, Dayanis; we continue to be very proud of you!
