

YOUNG MEN AND WOMEN IN CHARGE  
FOUNDATION, INC.

## Scholar Spotlight

### **Journey Leonard William Penn Chapter**

Journey Leonard, an articulate and driven 9<sup>th</sup> grade student at Penn Wood High School, Cypress Campus, has achieved many accomplishments and awards including Distinguished Honor Roll status consecutively for three years, receiving the Delaware County Black Caucus Community Service Award, and also receiving the Patriot Award (Outstanding Academics across all subjects). In addition to her academic achievements, she plays volleyball and softball.

This is Journey's second Program Year as a YMWIC Scholar. She has taken full advantage of the many opportunities the Foundation offers to her and has been very impressed by the many connections and experiences she has been exposed to. Journey says, "The Foundation's programming and amazing staff have made me value my future more and think about what I must do to achieve that goal." She would tell her peers who are thinking about joining, "YMWIC is an incredible opportunity that helps to ensure endless possibilities! Join as soon as you get the chance because of the number of connections, relationships, and experiences you will experience as a member of the Program." Her advice to younger Scholars is, "Keep on your journey in YMWIC, and don't miss the deadlines of your LDUs (Leadership Development Units)."

Thaddeus Stevens College of Technology, Drexel University, Carnegie Mellon University, and Delaware County Community College are schools Journey is considering in her quest to become an Architect. In her spare time, she enjoys spending time with her friends.

We are so proud that you are a YMWIC Scholar, Journey; keep up the great work!
