Scholar Spotlight

Adaima Campos-Rodriguez **Coatesville Chapter**

Adaima Campos-Rodriguez is an inspiring and dedicated Scholar in our Coatesville Chapter. Currently in the 8th grade, she joined YMWIC this year and has already made a significant impact through her commitment to her education and personal growth. Known for her soft-spoken demeanor, Adaima may initially come across as shy; but those who take the time to know her quickly discover a quiet confidence and a clever curiosity that shines through in all she does.

What Adaima enjoys most about the YMWIC Foundation is the unwavering support it provides. She appreciates how the organization's staff helps her stay on track with her grades and offers valuable resources for her academic journey. As she looks ahead to her future, Adaima aspires to attend nursing school, driven by a passion for helping others and making a difference in their lives.

Her advice to fellow Scholars is simple yet powerful: "Take advantage of every opportunity given by the Foundation. They offer so many good activities." This reflects her understanding of the importance of seizing chances for growth and learning, both academically and personally.

In her free time, Adaima loves to hang out with her siblings, cherishing those moments of connection and joy. Her kind nature and inquisitive spirit make her a wonderful role model for younger Scholars. We are excited to support Adaima on her journey toward a future in nursing. Because of her determination and grace, we have no doubt she will continue to inspire those in her sphere. Keep shining, Adaima!
