

Scholar Spotlight

Samuel Wilson Coatesville Chapter

Scholar Samuel Wilson is in the 11th grade at Downingtown West High School in the Downingtown Area School District. Sam, as he prefers to be called, joined YMWIC in the 5th grade as a Summer Program Scholar. Throughout his many years with us, he has discovered that he most enjoys the people he comes in contact with at the Foundation and how loving we have been towards him. He believes for himself and for other Scholars, "Everything you learn here will be important sometime in your life," and advises them to, "Just get your work done early. I believe by following my suggestions, you will have the best experience at YMWIC."

Sam says that being a member has helped him discover what he wants to do as he has gotten older. He would like to attend CIA (Culinary Institution of America) and be a traveling chef. He participates in the sport of karate and enjoys cooking and baking, especially for his family.

We salute your hard work and dedication, Sam.
