Scholar Spotlight

Tisya Dinesh **West Chester Chapter**

We love to see our Scholars excel! We are proud to share that Tisya Dinesh, who is in the 10th grade at Henderson High School, was extended a prestigious invitation to join the National Society of High School Scholars this year. A hard-working, dedicated, and very involved student, Tisya's favorite school subject is psychology and she is very much looking forward to the challenges of her Advanced Placement classes this year. Tisya is also a very dedicated and active YMWIC Scholar who is currently working on learning to use her time more efficiently.

Tisya's top college choice at this point is the University of Pennsylvania, and she plans to study Medicine. When not studying, she enjoys playing the piano. When asked who she most admires, Tisya's answer is, "My Mom and Dad." We admire you, Tisya, and are sure you have a successful future ahead. You are an asset to YMWIC!
