Scholar Spotlight

Daniel Craig **Norristown Eisenhower Chapter**

Meet **Daniel Craig**, an 8th-grade student at Wissahickon Middle School and a member of YMWIC since last year. He enjoys being a Foundation Scholar. He loves learning new things and working on projects; because of his affable nature, he easily interacts with other Scholars and makes new friends. To others who are interested in joining the Program, he says, “The Program gives you so much information and things to think about, and it is fun. You also will meet new friends and learn together collaboratively, which is a skill demanded in the workplace.”

Daniel would like to become an Engineer in the future. He recognizes the value of his Foundation experiences, saying, “The world is becoming more and more technical. YMWIC is a great place to learn how to function and advance in this technical world in order for us to be better prepared for these challenges.”

When not studying, Daniel plays basketball, football, soccer, and sings in a chorus. In addition, he enjoys playing games on his computer and reading.

We enjoy serving you as a YMWIC Scholar, Daniel. Continue on the path to a bright, successful future!
