Scholar Spotlight

Taylor Williams
Upper Darby Chapter

Taylor Williams, an 11th grade student at Upper Darby High School, joined YMWIC the summer before her 10th grade year and has been thriving ever since! One of her favorite aspects of the Program is the Community Service opportunities and the incredible people she has met through the Foundation. Taylor is grateful for the values she has gained from the YMWIC Credo, which has prepared her for the college application and selection process.

Taylor dreams of opening her own bakery and is currently considering top-tier schools such as Cornell University, The University of Michigan, and New York University to further her education. She advises young Scholars to make the most of the Program, emphasizing the importance of attending workshops and project support sessions, which offer invaluable benefits that often aren't fully realized until later.

Taylor also highlights YMWIC's strong focus on STEM education and the incredible financial support through scholarships awarded to every senior. Her academic achievements are impressive, having earned Distinguished Honor Roll every marking period from 6th grade to the present, as well as receiving the National Recognition Award from the College Board and the AP Scholar Award.

In addition to her academic success, Taylor plays lacrosse and serves as her school's Junior Class Secretary. When she's not studying or on the field, she loves baking, shopping, and spending time with her family and friends. YMWIC is proud to have Taylor as part of our Scholar family!
